## Slide Show/Photo Montage

The success of our efforts relies on you providing us the necessary media to work within the time frame requested.

### **Steps:**

1. Please limit your photos to the maximum of number of pictures outlined by your package unless you have arranged otherwise. Additional fees apply for pictures above this limit.
2. Choose pictures that are significant, entertaining and that tell a story.
3. Pictures should be in Digital format and provided on a photo CD.
4. They must be organized in chronological order with the oldest picture first.
5. Create a list describing each photo in the same order as the CD.
6. Each picture must be described and dated by year. Estimate as best as you can.
7. Please feel free to add any additional notes or captions with each picture as this aids us in personalizing your product. Use the attached form below.
8. Please provide us with a list of family members, friends and neighbors etc. that you would like to us mention in the credit section at the end of the movie. Please email us using a word document and take special care of spelling of names and titles. I will be pasting your document into the project.
9. Please notify us ASAP if you need assistance in selecting and ordering your photos.
10. If you would like a voice over narration, please be sure to provide us with all the necessary information to make this possible. Narration adds a wonderful dimension to the product and is available at an extra cost of \$25.00
11. Digital pictures are to be emailed, or delivered to us on a CD disk.
